Subject: FW: Jack Lake Storm Recovery

MPP David Smith

I want your office to be aware of the scale of damage on Jack Lake within the Townships of North Kawartha and Havelock Belmont Methuen.

The Storm was over 3 weeks ago and I think the impact on Jack lake has been a well kept secret with minimal media attention and next to no assistance from local municipalities who are operating based on “business as usual” possibly not aware of the actual challenges facing property owners.

I understand from Mayor Jim Martin that he is meeting with you this week and hopefully positive news with result towards assisting Jack Lakers.

I have been sharing my information through e mail with about 500 cottagers. Not all are affected but those who are need help asap.

Congrats of your election results

Ambrose Moran
