Re: MNRF Forestry Assault on Jack Lake Road...Entrance to Operation

Rob

At the Council meeting on Tuesday I understand you will be further investigating my previously stated concerns of May 4th.

While working on this file, can you determine the status of the new gravelled entrance off the Jack Lake road associated with the logging operation.

I am assuming at some point you will acknowledge that yes logging activity has taken place in accordance with my claims and will withdraw the statement at council meeting that no activity has taken place in that area for a couple of years.

Can you provide answer to these additional questions?

Question #4

Was an entrance permit applied to NK Township for the new entrance?

Question #5

Was an entrance permit issued by NK Township for the new entrance permit?

Question #6

Is this entrance permitted as a temporary or permanent entrance?

I am still awaiting and expecting answers to previous questions 1-3.

I look forward to your response and may be asking Clerk Connie Parent to place me on the agenda to discuss this matter with Council at their next regular public meeting. I would appreciate hearing from you ASAP in order that I can prepare to further discuss this important issue with Council.
