GOOD NEWS ANNOUNCEMENT

Very pleased to announce that as of noon today (Saturday Feb 19 2022) the Jack Lake Winter Cut Off which was blocked by a new gate last Fall ..and no trespassing signs in now OPEN for use.

Based on property ownership research and acquisition of applicable surveys it has been determined that most of the long established trail was not located on the actual property which was blocked by a gate and posted. The now slightly realigned trail is marked with colored tapes and no trespassing signs have been removed with actual property owners agreement and participation.

With the very much appreciated full cooperation of the Bowskill family, the trail from Robins Bay to Fire Route 89 is now available for safely bypassing the the dangerous Narrows in the Winter. I ask that users respect the marked trail boundaries and that no one travel through the Narrows. Thanks go to Bowskill family, and team of BJ, Cameron and David assisting today in marking the realigned trail.

For further details on this issue, you can visit www.ApsleyWatch.com ----> Jack Lake Winter cut off

BTW no level of government stepped up to assist in resolving this safety issue or taking responsibility for installing warning signs approaching the dangerous Narrows.. Still lot of work to be done on this file
