From the McCoy Road.

AOC's and other Values

- L - Lakes > 8 ha
- MPP - Moderate Potential Sensitivity Pond
- MPS - Moderate Potential Sensitivity Stream
- LPS - Low Potential Sensitivity Stream
- APA - Archaeological Potential Area
- HPS - High Potential Sensitivity Stream
- HPP - High Potential Sensitivity Ponds
- CV - Classified value
- BWH - Broad-winged Hawk or Cooper's Hawk Stick Nest

Values Comments:

New values were observed and mapped during the prescription cruise.

Other Comments/Issues:

Retain visual buffers (no/limited harvest) approximately 20m along both sides of McCoy Bay Road and cottage driveways. Harvest operations should not take place from April to Thanksgiving.
 Pre-planning road work should take place with Bruce Carwardine, McCoy Bay Road Association.
