Subject: RE: STORM BRUSH DEBRIS DISPOSAL

Hi Ambrose,

Thank you so much for your email, and the questions that you are asking. I have shared this with our team here and we will pull together responses help you and the folks around Jack Lake who were impacted understand the options for disposal of downed trees and limbs. We will also connect with our colleagues with the Aviation and Forest Fire team to help with your concerns about the municipal fire ban by-laws, those are not directly connected to the district but we will try to get some information for you.

Take care,
Suzy

Suzy Shalla, Manager
Peterborough and Bancroft Districts | Regional Operations Division | Southern Region

Comment By Ambrose As of June 20 no response Interesting that North Kawartha is saying no day time burning based on being in compliance with Bancroft District MNR requirements but Suzy saying not connected
