Submission # 8 dated March 31 2022 by Ambrose Moran re County of Peterborough Proposed Official Plan

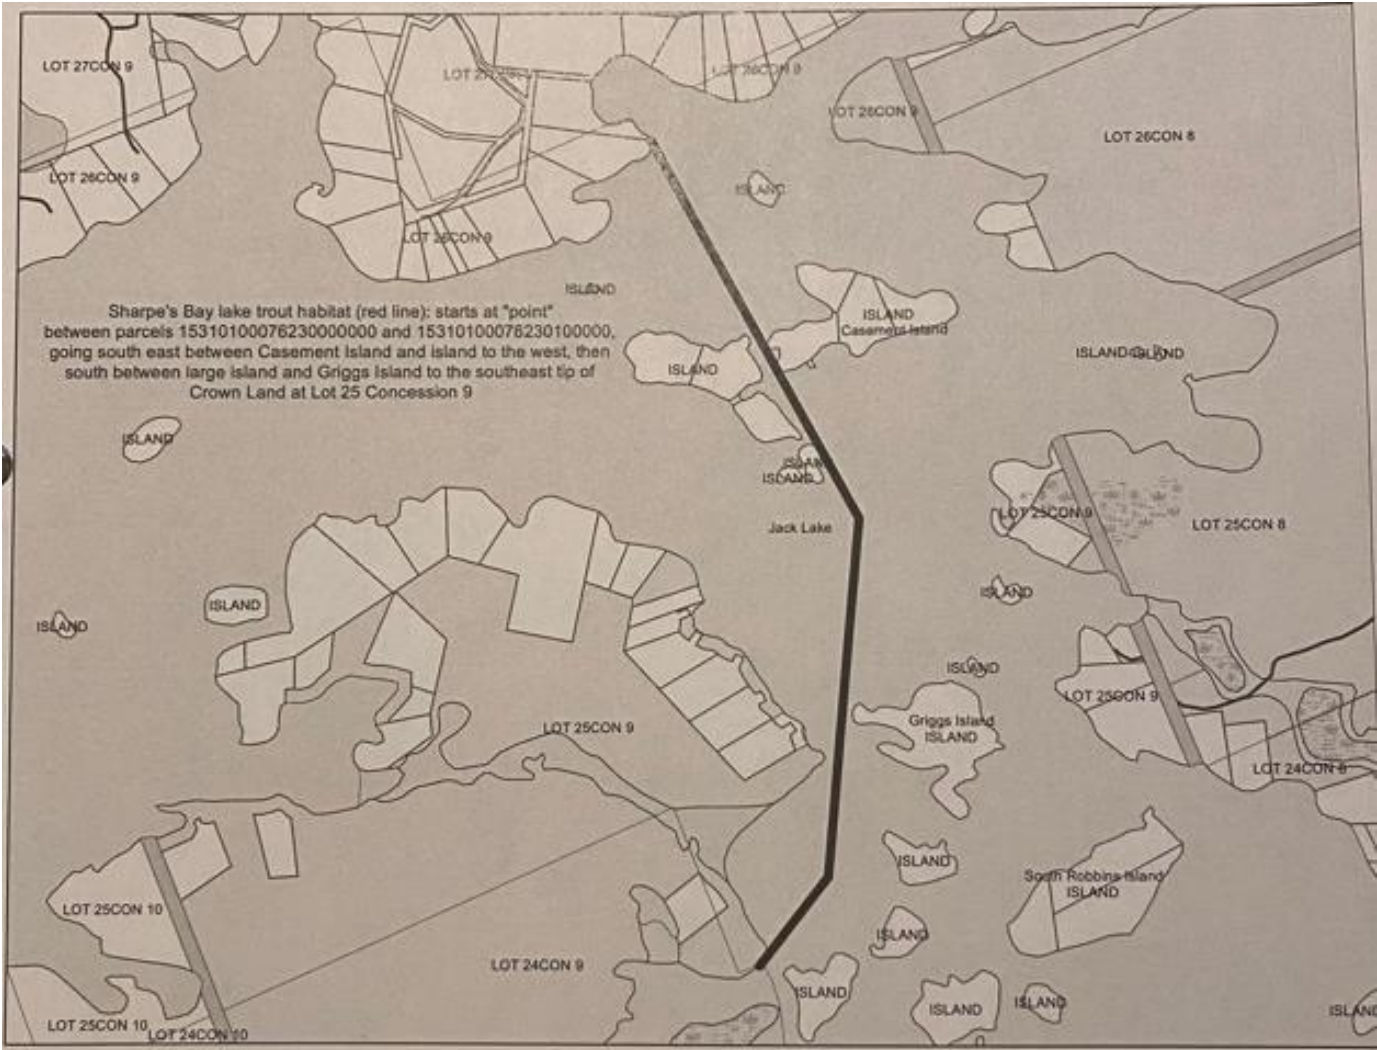

## SUBJECT : Jack Lake Sharpes Bay at Capacity -Boundaries

**Background:** When Havelock Belmont Methuen proposed categorize Sharpes Bay at capacity, I either wrote a submission or filed an appeal based on the need for establishing the actual boundaries for Sharpes Bay

**Comment:** The merit of my concerns was recognized and subsequently MOEE did prepare a map or maps to establish the limits

In my files I have the following and recall at least the second map was provided by MOEE but I do not have with me the correspondence.

**Recommendation :** That a map be included in the new OP to clarify boundaries of Sharpes Bay as was previously agreed with me when HBM was in the process of dealing with classifying Sharpes Bay “at capacity”.
