

## Villas of Park Shore ...Whitewash Program by Ambrose Moran 4050 Crayton

### Part one

On Dec 5th the VOPS held a Board meeting at which time the results of an election were announced in which it was determine that 29 owners apparently voted in support of the Board expressed wish to have our villas painted totally white..including siding & facia & garage door& trim & gutters & window trim & downspouts.

This is a **part one** of my response to advance my reactions to a decision which from the outset I have not supported .. and I will also provide a follow up Part 2 which will include a frank critique on the paint decision making process and constructive input on how the process can be improved in the event any of us are here when a repaint program is considered in the future.

"A doctor can bury his mistakes, but an architect can only advise his client to plant vines." – **Frank Lloyd Wright** in Reader's Digest.

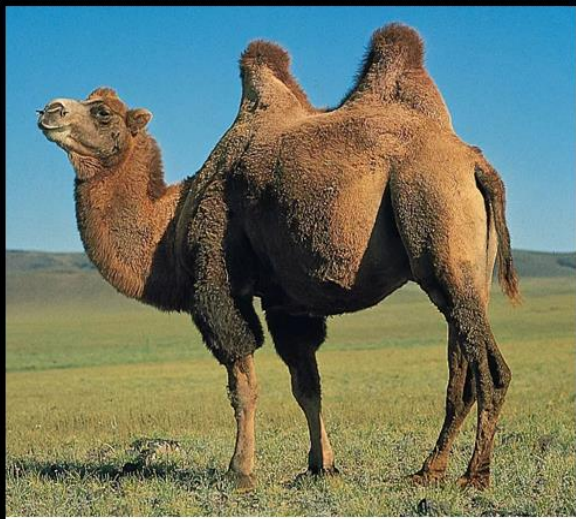

The Architect Can Only Advise His Client to Plant Vines

**When Paint a building White and realize it was mistake .....option is to grow vines**

**Camel is a horse created by a committee**

**Paint scheme created by a committee-in fairness that is not true- this scheme is encourage by VOPS HOA Board as Paint Committee suggested Greek Villa and Natural Linen be on the ballot for community to vote on**

**Part 2** to follow regarding process...lesson learned.. and prediction of eventual compromise resolution.
